CBRS Private Wireless Intercom Systems

Better Communication at the Click of a Button

Achieve new levels of coordination, efficiency, and mobility with Trilogy NextGen.

The key to any great event is reliable communication. From sports and entertainment to conferences and festivals, communication is essential among the crews for your guests to experience something extraordinary. It helps you call in the right play, cue the big finale, and alert staff when there's a problem.

Optimize your communications with a flexible solution that meets your unique needs and scales with your event. Trilogy NextGen has partnered with Green-GO to offer a comprehensive mobile wireless digital intercom system.

The Trilogy Intercom System powered by Green-GO is a secure, reliable, flexible, and scalable IP-based intercom system that provides amazing audio quality. Combined with CBRS Private Cellular, the system is a great fit for reliable wireless intercom for applications in [Education](#), [Industrial](#), and [Smart Cities](#).

Sporting Events

Whether it's on the gridiron, court, field, racetrack, arena, or pitch, a reliable wireless digital intercom system provides the communication your team needs to make in-game / race adjustments.

Music Concerts

The performers may be the stars, but the communication between your production staff, stage crew, event organizers, and security ensures the show goes on.

Warehouse & Manufacturing Operations

Personnel needs to coordinate activities on the warehouse or manufacturing floors while communicating with staff to make sure the operations are smooth. A robust wireless intercom solution that works in any corner of the floor is key for productivity.

Trade Shows & Conferences

From AV techs to event planners, every detail must be coordinated between teams working behind the scenes so everything goes smoothly.

Cruise Ship Operations

On a ship with thousands of passengers, coordination is essential to keeping every soul on board happy, engaged, and safe.

Outdoor Events

Whether it's a marathon, fall festival, or parade, events in open spaces need dedicated communications to coordinate your volunteers and staff.

Key Features

Reliable Communications

- 32 Independent Channels
- Up to 3000 Users
- Digital Audio

Robust Network

- Multiple Device Profiles
- Segment Up to 400 Groups
- Scalable to Your Needs

Secured Access

- Symmetrical AES-256 Encryption
- Two-level Access Protection
- Private CBRS Network

Easily Deployed

- Lightweight, Plug & Play
- Customizable Dashboards
- Requires IP Network and PoE

Smarter Communications with Better Connectivity

With Trilogy NextGen's expertise in building purpose-built Private LTE/5G networks, organizations can be confident that their digital intercom systems are connected to a secure, reliable network supporting their communications needs.

Trilogy NextGen designs, builds, and manages high-speed networks that provide security, reliability, and simplicity for private enterprises, educational institutions, smart cities, industrial plants, and government agencies. Building on our unique expertise spanning Broadband, Broadcast, and Cloud, Trilogy NextGen delivers scalable connectivity solutions customized for any wireless network using private LTE/5G, Wi-Fi, and ATSC 3.0 technologies.

Fluent in Connectivity

Simplify your network with robust solutions that are reliable across every application and into every corner of your network.
